

## Our Programs

Thursday, August 31, 2006

CNC currently focuses its efforts through three highly successful programs -

The Building Democracy Initiative counters organized racism, anti-immigrant activity, and other forms of bigotry through strategic research, community organizing, education and training around the globe.

The Revitalizing Congregations and Communities program develops congregation and parish-based community organizations to work for social and economic change in small cities and rural areas.

The Rural Pastors Institute supports and enhances the ministries of rural congregations, parishes, and pastors, advances pastoral excellence and leadership, and strengthens community life.
